

**DOE/IHEA
Materials Forum**
Oak Ridge National Laboratory
Oak Ridge, Tennessee
Building 4515, Conference Room 240
February 5-6, 2003

TABLE OF CONTENTS

FORUM PRESENTATIONS

Key Note Presentation

Industrial Materials of the Future
Ms. Sara Dillich, Industrial Technologies Program,
Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy

Industry Presentations

1. A Look at the U. S. Process Heating Industry: Today and Tomorrow – Mario Ciampini, President, IHEA
2. High-Temperature Alloys – Jason Wilson, Technical Marketing Manager, Rolled Alloys, Inc.
3. Advanced Ceramics – Robert Licht, Manager , Government Programs Group, Saint-Gobain Ceramics & Plastics, Inc. and Chairman USACA
4. Refractories and Insulation for the Heating Equipment Industry – Gary Deren, Unifrax Corporation

DOE National Laboratory Presentations

5. High-Temperature Alloys – Vinod Sikka, ORNL
6. Low Cost Ceramic Composite Fan Materials – Ronald Ott, ORNL
7. Monolithic and Surface Modified Ceramics – Andrew Wereszczak, ORNL
8. Advanced Nonporous Composite Materials for Industrial Heat Applications –Michael Ayers, LBNL
9. Advanced Refractory Materials Research Program – Cindy Dogan, ARC

10. Materials Degradation Processes in Elevated-Temperature Environments Relevant to Process Heating – Peter Tortorelli, ORNL

Oak Ridge National Laboratory Presentations

11. Introduction to Oak Ridge National Laboratory - Marilyn Brown
12. Working with Oak Ridge National Laboratory – Lou Dunlap
